

Blessings overflow and are unceasing. Be thankful for robust health to make life and work a joy. & joy abundant to pass on to others. Wealth enough to support your needs and those in need. & determination to make each day better than the day before. Boundless happiness to share with others. Strength and **Spirit** unbridled to overcome all obstacles. & unremitting optimism to vanish all doubts. **Grace** to overcome and forgive any transgressions. Patience to remain calm while the world races by. **Love** enough to conquer all. & a caring outstretched hand, especially to young people. To know that in the central place of every heart must be Respect for the earth, peace for the people, and Delight in the good, forgiveness for past wrongs, and Passion for new beginnings. And above all, **abiding thanks** for all your gains, miracle after miracle. To know that your final victories come from hope and **faith** and love and gratitude. & the greatest of these is **gratitude...** because it is the wellspring for all else. Unleash the power within you so you can touch the lives of others in endless and wonderful ways. Make every day a hallowed day of thanks giving.

To all our Institute alumni and friends—You touch our lives in such special ways. Our debt is never ending. Our cup of blessing overflows. We join you at this time of giving thanks. None can feel deeper the miracle of good fortune than does the faculty and staff of the Institute for Charitable Giving.
